

Samuel Kosasih

Bowie, MD | samadrianko@gmail.com | samadrn.com | linkedin.com/in/samkosasih | github.com/samadrn

Education

University of Maryland, College Park, BS in Computer Science August 2021 – May 2024

- GPA: 3.46/4.0 - Dean's List: Fall 2022, Spring 2023, Fall 2023, Spring 2024

Experience

Software Engineer L2, Inovalon – Bowie, MD June 2024 – Present

- Leveraged Angular to design and develop a wizard-style data-entry application to streamline customer onboarding processes from multiple weeks to a few hours
- Developed a script to map metadata from Swagger documentation using schemas from REST endpoints
- Created schematics that output various types of Angular pages of an internal admin tool managing enterprise customer accounts

Web Development Intern, IIGF Institute – Jakarta, IDN (Remote) June 2023 – August 2023

- Designed and developed an executive dashboard using React + Next.js to facilitate infrastructure project investments for Indonesian stakeholders within a notable government institution
- Collaborated with the Project Division to comprehend dashboard requirements, showcasing adaptability to project-specific demands

Student Lead, UMD Division of IT | Terrapin Tech – College Park, MD November 2021 – May 2024

- Led a team of technicians with a mission to serve the UMD community by resolving technology challenges through step-by-step guidance and problem-solving skills, maintaining high quality customer service standards
- Mentored team members on store procedures, prioritizing their well-being and safety in a customer-facing role

Projects

Pocket Garage July 2023

- Developed a React Native Cross-Platform Automobile Data Application to search for vehicle specifications
- Leveraged APIs for real-time data retrieval and Google Firebase for efficient data management
- Tools Used: React Native, Google Firebase | Link: github.com/SamAdrn/PocketGarage

Unity May 2023

- Collaborated on a Team Project to create a Lifestyle iOS Application that gamifies walking & exploring your surroundings
- Utilized MapKit and HealthKit to integrate Apple Maps and Apple Health features into the application, allowing users to view their current location and track their number of steps
- Tools Used: Swift, Xcode | Link: github.com/SamAdrn/Unity

Testudo Revamped December 2022

- Revamped the class schedule system servicing students of the University of Maryland
- Established a web server using Express.js that interfaced with the university's courses API to deliver course details based on user search queries, optimized by a remote MongoDB database for better performance
- Tools Used: HTML + EJS, jQuery, MongoDB | Link: github.com/SamAdrn/Testudo-Revamp

Skills

Languages: TypeScript, HTML/CSS, Python, Java, Ruby, Racket, ANSI C

Frameworks: Angular, React, Next.js, Tailwind, Playwright

Developer Tools: Git, Azure DevOps, VS Code, PostgreSQL, MongoDB
